

# Urethane Tool Cleanser

Hydrophobic  
Urethanes

## DESCRIPTION

The **Urethane Tool Cleanser** provides high solvent power, low health and environmental risks. This solvent can be used effectively to remove urethanes from tools and equipment and to purge injection hoses. It has a high flash point and low volatility which make it an ideal replacement for acetone. Even with its limited water solubility, **Urethane Tool Cleanser** can also be used to flush injection hoses to remove small amounts of water. **Urethane Tool Cleanser** will not evaporate and therefore will keep your equipment lubricated.

Hydrophilic  
Urethanes

Accessories

Please read the **MSDS** literature, prior of usage of the product. Use this product only in well ventilated area. Eye and skin contact should be avoided.
